

PLAYTOP

3D ANIMALS & 2D GRAPHICS

CHILDREN LOVE TO USE THEIR IMAGINATION AND CREATE THEIR OWN ADVENTURES WHILE THEY PLAY.

The Playtop range of 3D rubber animals and 2D shapes offers an exciting new playground experience.

In addition to enhancing the look and feel of a play area, this range generates a greater sense of adventure to feed children's imaginations and make play even more fun!

PLAYTOP

3D ANIMALS & SHAPES

Put the adventure back into play!

Made with bright, bold colours, the exciting range of Playtop three dimensional animals and shapes all comply with the European Safety Standard EN1176.

Every animal and shape is covered with a high quality rubber surface and all products are made in the European Union.

The Playtop 3D range is perfect for helping children develop social skills, offering meeting and seating in one convenient place. If not anchored to the ground, can easily be moved around from time to time to create new play patterns for the children and a whole new play experience.

Choose from the Classic range of animals and shapes or the Mini range, ideal for younger children or where space is more limited.

PLAYTOP

2D GRAPHICS

Say goodbye to plain rubber surfaces!

The 2D EPDM Graphics bring a new dimension to play areas, easily. All 2D EPDM Graphics are produced with high-quality EPDM and UV stable aliphatic polyurethane binder.

Our products meet EN71 standards and are free of Polycyclic aromatic hydrocarbons as per REACH 494/2011.

From hopscotch and traffic signs to pawprints and reptiles, there is a large range to choose from for every possible play area theme.

Bring your playground to life and encourage more physical play with 2D graphics.

FLY TO THE CLOUDS ON THE BACK OF A LADYBIRD OR FIGHT OFF THE EVIL SPIDER

Balance on the legs of the Octopus or have a rest on the belly of the Sleeping Farmer. The size of the animals creates a three-dimensional environment where they can be played on top of, at the side of or all around. They can be conquered or used to hide behind. The range is as adaptable as it is innovative.
